

PRELIMINARY AMENDMENT

REMARKS

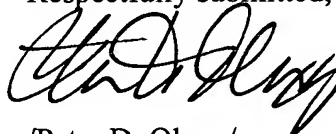

In claim 1, at page 110, line 10, the "bracket" in combination with the "close bracket" at page 113, line 22, have been removed and page 113 at line 23 amended to make it clear that the other one of R¹ and R⁴ represents the group recited.

In claim 1, at page 111, lines 23 and 24, J does not occur in the claims and is deleted.

With respect to changing "following substituent group" to "later identified substituent group" in the claims, this is just for clarity since "following" usually means immediately following whereas, in fact, the "substituent group" is later identified.

With respect to the correction of "fluorine" just after formula (G-2) for E¹ and E² and the corresponding change in the specification at page 12, the correction is believed self-explanatory.

Respectfully submitted,

/Peter D. Olexy/
